

Welcome to the Feed

Welcome to the bonus broadcast Feed. You have access to this feed because you purchased the Soft Regulation Desensitization program. So first of all, thank you for being here. I want to explain how this is going to work. This is a feed where you're gonna receive bonus audio content delivered straight into your library.

My plan is to upload something monthly for the foreseeable future, but I'm not putting a hard rule on it. Like if I learn something new. Or I have some type of realization or think of another way to support you. There may be some surprise uploads along the way as well. This content in this feed is exclusive to course members.

I'm not releasing it anywhere else, and I created it because I feel like the work is always evolving. I'm constantly learning, refining things, having my own realizations. This is both in my own journey as well as watching others work this process, I wanted a way to stay connected and to keep supporting you beyond the course itself.

Because once you've done the work and you have that foundation, this feed lets me keep building on that with you. So what can you expect? Things like deeper dives on the concepts I taught you from the course. Any new insights or practices or perspectives as they come up for me, maybe some behind the scenes of my own regulation journey.

And honestly, just things I would share with someone who I know really gets it. Someone who gets the context in the way that I teach it. So that's it for now. All you have to do is keep the feed subscribed and anytime there's a new audio, a new episode will show up when it's ready. Thanks for being here.
